## Look Out For Bad \$10 Bill.

Secret Service Head Says It's  
a Dangerous Counterfeit.

"This is a dangerous counterfeit and calculated to 'deceive' says Acting Chief Morgan of the secret service in a circular issued giving warning of a new counterfeit ten dollar national bank note. It is on the Anglo and London-Paris National bank of San Francisco and bears the portrait of William McKinley. It is of the series of 1905-06 and bears a check letter 'R'.

This counterfeit is regarded by the secret service men as the work of the person responsible for the counterfeit ten dollar Panama National bank note which made its appearance in September, 1910. It is printed from photograph etched plates of good workmanship on two pieces of paper, between which silk threads have been distributed.

You are not experimenting on yourself when you take Chamberlain's Cough Remedy for a cold, as that preparation has won its great reputation and extensive sale by its remarkable cures of colds and can always be depended upon. It is equally valuable for adults and children and may be given to young children with implicit confidence as it contains no harmful drug. For sale by Stockton & Son.

## Feed Prospects.

Corn is not plentiful and hay is scarce and high, yet some observant farmers say there will be as much feed next spring as usual. They say when feed is plentiful it is fed wastefully, and when it is scarce care and economy are used. This will be the case this winter and many think it will result in their being as much feed on hand next spring as usual.

## Take Your Common Colds Seriously.

Common colds, severe and frequent, lay the foundation of chronic diseases of the nose and throat, and may develop into bronchitis, pneumonia and consumption. For all coughs and colds in children and in grown persons take Foley's Honey and Tar Compound promptly. After exposure, and when you feel a cold coming on, take Foley's Honey and Tar Compound. It checks and relieves. Use no substitute. The genuine is a yellow package always. Stockton & Son.

To date Governor Wilson has only been absent 200 days from his post of duty. He has drawn from the treasury for that period of idleness \$4,786.20, his salary being \$17.80 per day, and for doing his work Lieutenant-Governor Cox has drawn the same amount.

This is the wastefulness and neglect which Judge O'Rear's platform tells the voters is altogether praise-worthy. Midway Clipper.

## Cleaning and Pressing.

Ladies and gentlemen's clothing cleaned and pressed by Mrs. G. F. Bradley, 130 Second St. up stairs. Work is of highest order, price low. A trial order is solicited.

## A Big Crop of Tobacco.

A farmer living near Barville, Pa., committed suicide because he had such a big tobacco crop that his barn was too small to hold it all. The Charleston News and Courier says that the cotton planter are praying for a shortage of a million bales in the cotton crop as a financial blessing. However, as the consumers outnumber the cotton growers a hundred to one and they are all praying for a big crop and lower prices, it looks as if the planter might be out prayed. It is a singular anomaly that with everyone complaining against the high cost of living, any one should be fearing too big crops. It would be no wonder if Providence should get out of patience with people so inconsistent and hard to please as this.

## Onions Prove Profitable.

W. J. Brown, who owns a farm of 300 acres in the valley of the lower R. Grande, near Mission, made such a success this year raising Bermuda onions and other products that he has turned his handsome new country residence over for the use of his superintendent and family, and has plans prepared for a more magnificent new home for himself. He will erect the house this fall at a cost of \$25,000.

Lame back is one of the most common forms of muscular rheumatism. A few applications of Chamberlain's Liniment will give relief. For sale by Stockton & Son.

## Stock in Kentucky.

In Kentucky the aggregate value of all domestic animals, poultry and bees in 1910 was \$12,328,000, as compared with about \$73,728,000 in 1900, the increase being 59.1 per cent. The total value of the domestic animals was \$12,327,000 in 1910, as against \$70,488,000 in 1900. Horses and colts had a greater value than any other class of domestic animals in 1910, whereas cattle had a slightly greater value in 1900. Horses and mules in 1910 constituted 60.6 per cent of the value of all live stock; cattle, 22.1 per cent; swine, 7.6 per cent; sheep and lambs, 4.7 per cent; poultry, 3.8 per cent; asses and burros, 0.7 per cent; bees, 0.4 per cent; and goats and kids, 0.1 per cent. The total number of cattle reported in 1910 was 960,553. Of these, 460,469 were dairy cows, the average value of which was \$33.40. Cows not kept for dairy purposes numbered 100,971, and their average value was \$25.96. The average number of dairy cows per farm reporting that class was nearly two, while the average number of cows not kept for milk per farm reporting that class was about three. The total number of horses and colts reported in 1910 was 412,559. Of these, 387,398 were born before 1900, and their average value was \$109.22. The total number of mules of all ages in 1910 was 224,947, which is over half the number of horses and cattle. Of these, mules born before 1900 numbered 195,533, and their average value was \$124.51. The total number of swine in 1910 was 1,192,216, of which nearly seven-tenths were born before 1910. The average value of these was \$7.64. The total number of sheep and lambs was 1,361,000. Of these, 723,566 were ewes, born before 1910, and their average value was \$4.79.

## That good ice cream at Ricci's.

The new law recently passed in New York state to regulate the carrying and keeping of firearms has created a good deal of discussion. It is the strictest law of the kind ever passed in this country. The law makes it a felony for any person to carry a concealed weapon and a misdemeanor even to keep a revolver or like deadly weapon in his possession at home. Even when one can show that it is necessary to keep a weapon for self protection he must pay a license of ten dollars for the privilege and then he receives a number so that he can be identified and held responsible. This law is not one bit too strict. Every state in the union should have and enforce similar law. It would prevent the shedding of much innocent blood and put a quietus on many a loud-mouthed bully. The truth of the business is that not many persons except cowards carry guns now and their cowardice almost invariably causes them to shoot when there is little provocation and no necessity for doing so.

Stearns & Foster Mattresses are Comfortable, Durable and Sanitary; not only because of the way they are made, but because of the materials in them.

No patented process of mattress-making will produce a quality mattress out of poor cotton or cotton improperly handled.

Stearns & Foster Mattresses are made of clean, sanitary cotton; felted into hundreds of little webs, forming many springs, buoyant layers, standing nearly three feet high. These layers are then laid by hand and compressed to one-sixth of their original height and encased in the ticking; then tufted to just the proper tension, so as to be soft, yet firm, half yielding to your figure, yet supporting it in perfect relaxation.

Made in the best qualities of Satin Finish, dustproof tickings WITHOUT EXTRA CHARGE.
